PROJECTS

Project 1

Movie Site

- The movie website is a dynamic platform that utilizes an API (Application Programming Interface) to retrieve and display movie-related information.
- The website serves as a hub for movie enthusiasts, providing them with an intuitive and user-friendly interface to search for movies, explore details, and discover new releases.
- Key Features: Search Functionality, Movie Listings, Movie Details, Movie Recommendations, User Reviews and Ratings.
- Technologies Used: HTML, CSS, Java Script.

Project 2

Usability Hub

- I developed a fully responsive clone of Usability Hub, a user testing platform.
- The website was built using HTML and CSS, ensuring a seamless user experience across mobile, tablet, laptop, and large screens.
- The project showcases my skills in frontend development, including responsive design and creating user-friendly interfaces.
- Technologies Used: HTML, CSS.

Project 3

PortFolio

- It features a clean and visually appealing design, highlighting my accomplishments and providing easy navigation to different sections such as About Me, Resume/CV, Projects, and Contact.
- The portfolio website effectively demonstrates my abilities, qualifications, and dedication.
- Technologies Used: HTML, CSS, JavaScript.

SKILLS

JavaScript HTML CSS Bootstrap
SQL REST API Git Git Hub
Data Structure React Redux-tool-kit
MongoDB

EXPERIENCE

IT Field

Relevant Coursework or Certifications

- Completed online courses in web development, learning HTML, CSS, and JavaScript.
- Pursuing JavaScript framework React and Redux-tool-kits from ACCIOJOB and after that planned to learn about the NODE, MongoDB and Express to become Full Stack Developer.
- Earned a certification in project management, demonstrating knowledge in planning and executing projects effectively.

Non-IT Field

Internships or Part-time Jobs

- Worked as a customer service representative at a retail store, developing strong communication and problem-solving skills.
- Completed a summer internship at a marketing agency, gaining experience in social media management and content creation.
- Assisted with administrative tasks at a healthcare clinic, developing organization and time management skills.
